

HARISH AHAMED

Web Designer & Developer

+91 63831 23981 harishahamedk17@gmail.com Portfolio

ABOUT ME

Aspiring Web Designer & Developer with hands-on experience in HTML, CSS, JavaScript, PHP, and Framer. Skilled in designing interactive, visually appealing, and responsive web interfaces, as well as developing dynamic web applications using PHP and database-driven solutions. Experienced in building JDBC-based applications and integrating front-end designs with back-end logic. Seeking an entry-level Web Designer / Web Developer role to contribute creativity, technical expertise, and problem-solving skills to real-world projects.

EDUCATION

2023 - 2024 HIGHER SECONDARY EDUCATION
S.E.V.MATRIC.HR.SEC.SCHOOL PERCENTAGE - 84 %

2024 - 2028 INFORMATION TECHNOLOGY
BANNARI AMMAN INSTITUTE OF TECHNOLOGY CGPA - 8.03

PROJECTS

<u>BUSINESS LANDING PAGE – BRANDING</u> (Client Project).	LANDING PAGE Built a modern, visually engaging landing page focused on branding and customer experience. Implemented responsive design, smooth animations, and structured content sections to enhance online presence and usability.
<u>FRAMER</u>	CAR BRANDING WEBSITE Created an interactive car model website using Framer as a learning project. Designed multiple sections with smooth page transitions, scroll-based animations, and fully responsive layouts to improve user experience and visual appeal.
<u>TEST COMPILER</u>	TEST WEB COMPILER Developed a web-based programming assessment and test compiler platform that includes MCQ-based certification courses related to programming concepts. The system evaluates user performance, provides instant feedback, and supports structured learning for beginners.
JDBC APPLICATION	ENQUIRY MANAGEMENT APPLICATION Built an enquiry management system using JDBC that allows users to add, search, update, and view enquiries efficiently. The system uses database connectivity to store and manage enquiry records, improving data organization and retrieval.
<u>LIFE LEDGER</u>	PERSONAL EXPENSE TRACKER Developed LifeLedger, a web-based personal expense and budget tracking application using HTML, CSS, JavaScript, PHP, MySQL. The platform allows users to record, manage, and analyze expenses with a responsive interface and secure data handling.

SOLAR KIOSK
MODE DASHBOARD
(Client Project).

INTERACTIVE TV KIOSK MODE APPLICATION

Developed a kiosk-mode dashboard for a solar installation company to display real-time business insights on large screens. Built modular UI components such as stat cards, interactive India map, and TV dashboard layouts using React and Tailwind CSS. Integrated backend data using Google Apps Script for dynamic updates and optimized the interface for continuous display and usability.

ETHICAL UX AUDIT
PLATFORM (Dark
Pattern Detection).

ETHICAL UX AUDIT PLATFORM

Developed a web-based platform to analyze websites and detect unethical UX practices (dark patterns) such as fake urgency, forced sign-ups, hidden costs, and misleading UI elements. Built an interactive dashboard to display audit results with detailed pattern insights and structured reports. Implemented fast website scanning using API-based scraping and designed a modern, user-friendly interface for clear visualization of issues.

MOVIE SEARCH
APPLICATION

MOVIE SEARCH APPLICATION USING API

Developed a feature-rich movie search platform with real-time API integration for fetching movie details. Added advanced functionalities including autocomplete search, pagination, favorites system, and theme switching. Focused on performance optimization, responsive design, and clean UI for seamless user interaction.

SKILLS

- | | | | |
|--------------------------------|----------------------------------|------------------------|-----------------------|
| • HTML5,CSS3,JavaScript (ES6+) | • C,C++,Java | • PHP & JDBC (BACKEND) | • DATABASE MANAGEMENT |
| • Responsive Design | • Wireframing & Page Structuring | • Framer & Figma | • UI/UX Design Basics |

CERTIFICATIONS

• **Advanced Diploma in Computer Programming**

Focused on PHP and Advanced Java, including JDBC and Spring Framework, with hands-on experience in backend development and database connectivity.

• **ORACLE CLOUD INFRASTRUCTURE 2025 CERTIFICATION**

Earned certification in Oracle Cloud Infrastructure covering core cloud concepts, compute, storage, networking, and cloud security fundamentals. Gained understanding of deploying and managing scalable cloud resources.
